

Contents

Preface [vii](#)

Acknowledgments [ix](#)

Part 1: Using, making, and sharing maps [1](#)

Essentials for getting started [3](#)

Chapter 1: Introducing ArcGIS [5](#)

Chapter 2: Map design [43](#)

Chapter 3: Map outputs for GIS projects [75](#)

Part 2: Working with spatial data [111](#)

Chapter 4: File geodatabases [113](#)

Chapter 5: Spatial data [147](#)

Chapter 6: Geoprocessing [177](#)

Chapter 7: Digitizing [209](#)

Chapter 8: Geocoding [239](#)

Part 3: Applying advanced GIS technologies [253](#)

Chapter 9: Spatial analysis [255](#)

Chapter 10: Raster GIS [293](#)

Chapter 11: 3D GIS [327](#)

Part 4: Managing operational systems with GIS [373](#)

Chapter 12: Operations management with GIS: Graffiti Mapping System [375](#)

Chapter 13: Operations management with GIS: Graffiti Removal System [407](#)

Data source credits [437](#)
