

Licensing Terms of Use

Documented Changes

Document Updated: E300 – Product Specific Terms of Use

Date of Update Implementation: August 31, 2022

Overview: The Product Specific Terms of Use (E300), have been updated to reflect changes due to updated Esri policies, and clarification language derived from Esri Product Management and customer requests.

Sections(s) Impacted: Impacted with contextual, clarification, grammar, or terms & Conditions changes, which will impact future version use.

General Changes: *Most changes are grammatical changes or updates to wording to allow for better flow of what the statement is supposed to imply. Major changes described below.*

PRODUCT SPECIFIC TERMS OF USE

[Where: Server Products and Footnote 87](#)

Change:

- ArcGIS Enterprise
 - Standard or Advanced (17; 21; 23; 31;~~87~~)
 - Workgroup Standard or Advanced (21; 23; 26; 28; 29; 30;~~87~~)
- ArcGIS Business Analyst Enterprise (17; 21; 23; 31;~~87~~)

~~87. Accessing Parcel Fabric services provided by ArcGIS Enterprise is prohibited except through ArcGIS Pro Standard and ArcGIS Pro Advanced.~~

[87. Reserved.](#)

[Why: Footnote 87 has been removed because Parcel Fabric services are now only enabled with proper licensing.](#)

[Where: Developer Products](#)

Change:

- ArcGIS Developer Subscription
 - All Plans (16; 24; 26; 66; 68; ~~77~~; 89; 91; 97; 103)

[Why: ArcGIS Developer Subscription Essentials Plan does not include a Commercial App Deployment License.](#)

[Where: Online Services and Footnote 104](#)

Change:

- [ArcGIS for Microsoft Planetary Computer—Pro Machine \(104\)](#)

[104. ArcGIS Cloud Store connection files \(ASC files\) pre-installed on virtual Pro Machines may not be copied or otherwise transferred to any other device.](#)

Why: ArcGIS for Microsoft Planetary Computer – Pro Machine is a new product. ArcGIS Cloud Store connection files (ASC files) pre-installed on virtual Pro Machines are intended for use only with those virtual Pro Machines. Such files may not be copied or transferred to any other device.

Where: Footnote 66

Change:

66. Only Customers with an active [paid](#) Online Services subscription may store geocoded results generated by World Geocoding Service.

Why: This is clarifying that this right is only granted for a paid Online Services subscription.

Where: Footnote 79

Change:

79. Each subscription is limited to 1,000,000 geosearch transactions per month in conjunction with Customer's subscription. Transactions include both basemap data and geocode search transactions. One basemap data transaction is equivalent to eight 256x256 tile requests. One geocode search transaction is equivalent to one address or place. If the results are stored in any manner such as after batch geocoding, the stored results are not counted toward the transaction limit. However, storage does consume ~~Service Credits~~ [ArcGIS Online credits](#). For transactions greater the 1,000,000 per month, call Esri Sales or your local distributor for details.

Why: Credits used for consumption of Online Services within ArcGIS Online are no longer called Service Credits.
